

NR 445 TECHNICAL ADVISORY GROUP MEETING 6
AUGUST 3, 2000 9:30 A.M.
Conference Rooms A and B, Coughlin Center
625 East County Hwy Y, Oshkosh

9:30 Welcome/Introductions/Agenda Review/Follow up

- Introductions
- Review Meeting Notes
- Review Agenda

10:00 Modeling and Screening Proposals

Purpose: To present the proposed NR 445 screening level procedures for demonstrating compliance with Tables 1, 2 and 5 ambient air quality standards. This includes the “off-ramp” proposal. A demonstration of the SCREEN3 model will be presented.

- John Roth, DNR Atmospheric Dispersion Modeler

Materials: Memo from John Roth entitled “Wisconsin DNR Hazardous Air Pollutant Screening Levels”

10:30 Overview of Permitting and Compliance Issues

Purpose: To present an initial list of permitting and compliance issues

- Andy Stewart, DNR Air Management Engineer

10:45 Compliance Issues

Quantification of emissions at very low levels

Purpose: To present and get initial feedback on alternatives for inventory reporting and demonstrating compliance with NR 445 (threshold levels and standards)

- Andy Stewart, DNR Air Management Engineer

Effective dates of NR 445 and NR 438 Revisions

Purpose: To present and get feedback on a proposed schedule for emission inventory reporting, for demonstrating compliance with revised emission standards and for incorporating requirements in permits.

- Andy Stewart, DNR Air Management Engineer

12:00 Lunch Break

1:00 Relationship between Federal and State Hazardous Air Pollutant Regulations as they apply to New Sources and Major Modifications

Purpose: To present information and answer questions on the relationship between the federal and state HAP programs as they apply to new and modified sources.

- Steve Dunn, DNR New Source Review Permit Engineer and Andy Stewart, Air Management Engineer

2:30 Report from the Public Health Sub-Group

Purpose: Presentation of issues from the Public Health Sub-Group.

- Caryl Terrell, Sub-group Chair, Sierra Club

3:00 Follow-up Information from Meeting 5

- Information from TAG Members
 - Other state/federal rules that may have an impact on air toxics
 - Interest in serving on Sub-Group on Compliance Options
 - Final comments on Compliance Option for Table 3 compounds
- Information from DNR Staff
 - Binning alternative for Table 3
 - Further analysis of threshold levels for Table 3

3:20 Next Meeting/Follow-up Assignments/Other Business

- Next meetings
 - September 14, 2000 – Madison (Room 027, GEF 2)
 - Late October/Early November

3:30 Adjourn
